

# OneTrust + ALTR

## Simplifying Data Governance Through Automation

OneTrust is the #1 fastest-growing company on Inc. 500 and the category-defining enterprise platform to operationalize trust. More than 8,000 customers, including half of the Fortune 500, use OneTrust to make trust a competitive differentiator, implementing central agile workflows across privacy, security, data governance, GRC, third-party risk, ethics and compliance, and ESG programs.

By combining OneTrust and ALTR, customers see more value, faster, from both platforms.

- Automated discovery and classification
- Automated access governance
- Advanced governance policy
- Proactive security

ALTR's cloud platform offers a variety of advanced governance and security capabilities. In addition to recording requests for sensitive data, customers can enforce governance policy, ensuring proper access governance and enhanced control over how users consume data over time. Additionally, ALTR can tokenize critically sensitive data, ensuring it remains protected in use, in motion, and at rest.

## ALTR + OneTrust: Better Together

By combining OneTrust and ALTR, customer can simplify their data governance processes by automating many previously manual tasks. From data discovery and classification, to connecting data sources, creating governance policy, enforcing access governance, and integrating data security, joint customers benefit from powerful automation that drastically simplifies data governance initiatives.

Like OneTrust, ALTR is delivered as a service, allowing customers to be up and running on the platform in minutes. Additionally, PCI and SOC 2 Type 2 compliance as well as support for HIPAA compliance ensure customers of the reliability they can expect when using the platform.
