

ThoughtSpot + ALTR

Simplify management, streamline access, and get value out of *all your data*.

ThoughtSpot is reinventing how companies make decisions by putting the power of their cloud data in the hands of every employee through search and AI-driven analytics. With ThoughtSpot, anyone can use simple natural language to create new data-driven insights or

ALTR and ThoughtSpot: more data, more insights

With ThoughtSpot and ALTR, data leaders, business leaders, and analysts can safely and confidently gain AI-driven insights from sensitive data while ensuring data privacy and security.

surface those generated by others from across their entire enterprise. By leveraging AI, ThoughtSpot uncovers trends, anomalies, and patterns to answer questions users care about, but wouldn't have thought to ask themselves.

For customers with sensitive data, ALTR's platform helps satisfy privacy and compliance regulations while streamlining access to sensitive data. With ALTR, privacy, risk, compliance, data, and security teams work together to govern and automatically control access to sensitive data, simplifying role management and ensuring data flows to whoever needs it while private information stays protected.

Get value out of all your data.

ALTR makes it easy for customers to govern and protect sensitive data. Combined with ThoughtSpot, customers can safely and confidently gain AI-driven insights from sensitive data while ensuring data privacy and security.

ALTR is delivered as a service, allowing customers to be up and running on the platform in minutes. Additionally, PCI and SOC 2 Type 2 compliance as well as support for HIPAA compliance ensure customers of the reliability they can expect when using the platform.
